Getting Started

2

Purpose 2-3

Program portability 2-3

Prerequisite 2-4

Where to obtain program tar files? 2-4

What are contained in a tar file? 2-6

Steps to run MM5 modeling system programs 2-6

Functions of Job Decks or Scripts 2-7

What to Modify in a Job Deck/Script? 2-7

- Shell Variables 7
- Parameter Statements 8
- Fortran Namelist 8

How to build the executable and run the program? 2-9

- Creating FORTRAN Executable 9
- Linking files to Fortran units 9
- Execution 10

Output Files 2-10

Representation of date in MM5 modeling system programs 2-10

Where to Find Data at NCAR? 2-10
