

“Sponsored” WRF Physics Suites

Sponsor – A group/individual who has an ongoing commitment to a particular physics suite for their application interests and who is willing to serve as a focal point for documenting suite performance and incorporating attractive suite enhancements.

- Sponsors would:
 - Provide their rationale for the configuration of their physics suite
 - Periodically post updated verification information to document the impact of new releases or enhancements on the behavior of their physics suite.
 - Encourage the sharing in information regarding the strengths and weaknesses of their suite in various applications.
- Suite users would provide feedback to suite sponsor on their experiences in using the suite for their applications.
- Sponsored physics suites would be comprised of physics packages supported within the released WRF community code.
- Recognition of proposed sponsored physics suites would be subject to approval by the WRF Physics Review Panel.
